

# Level crossing removal works

# Mordialloc car parking changes

**Works**

**From  
Mon 3  
Mar**

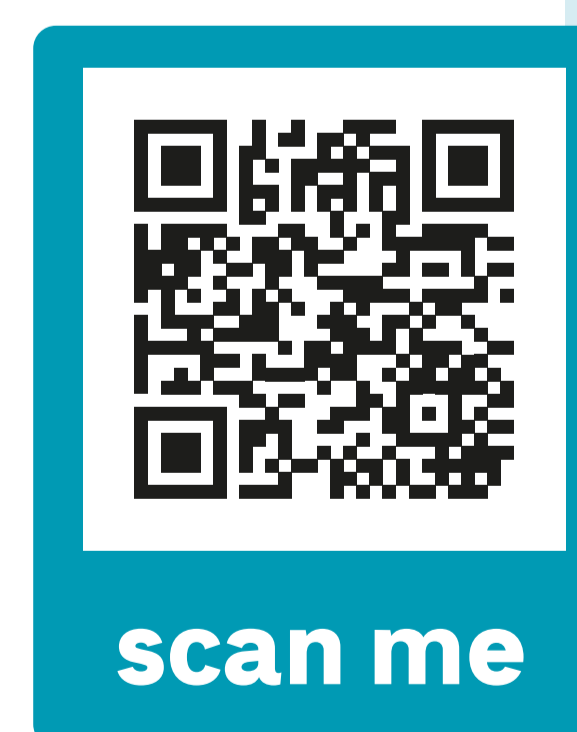

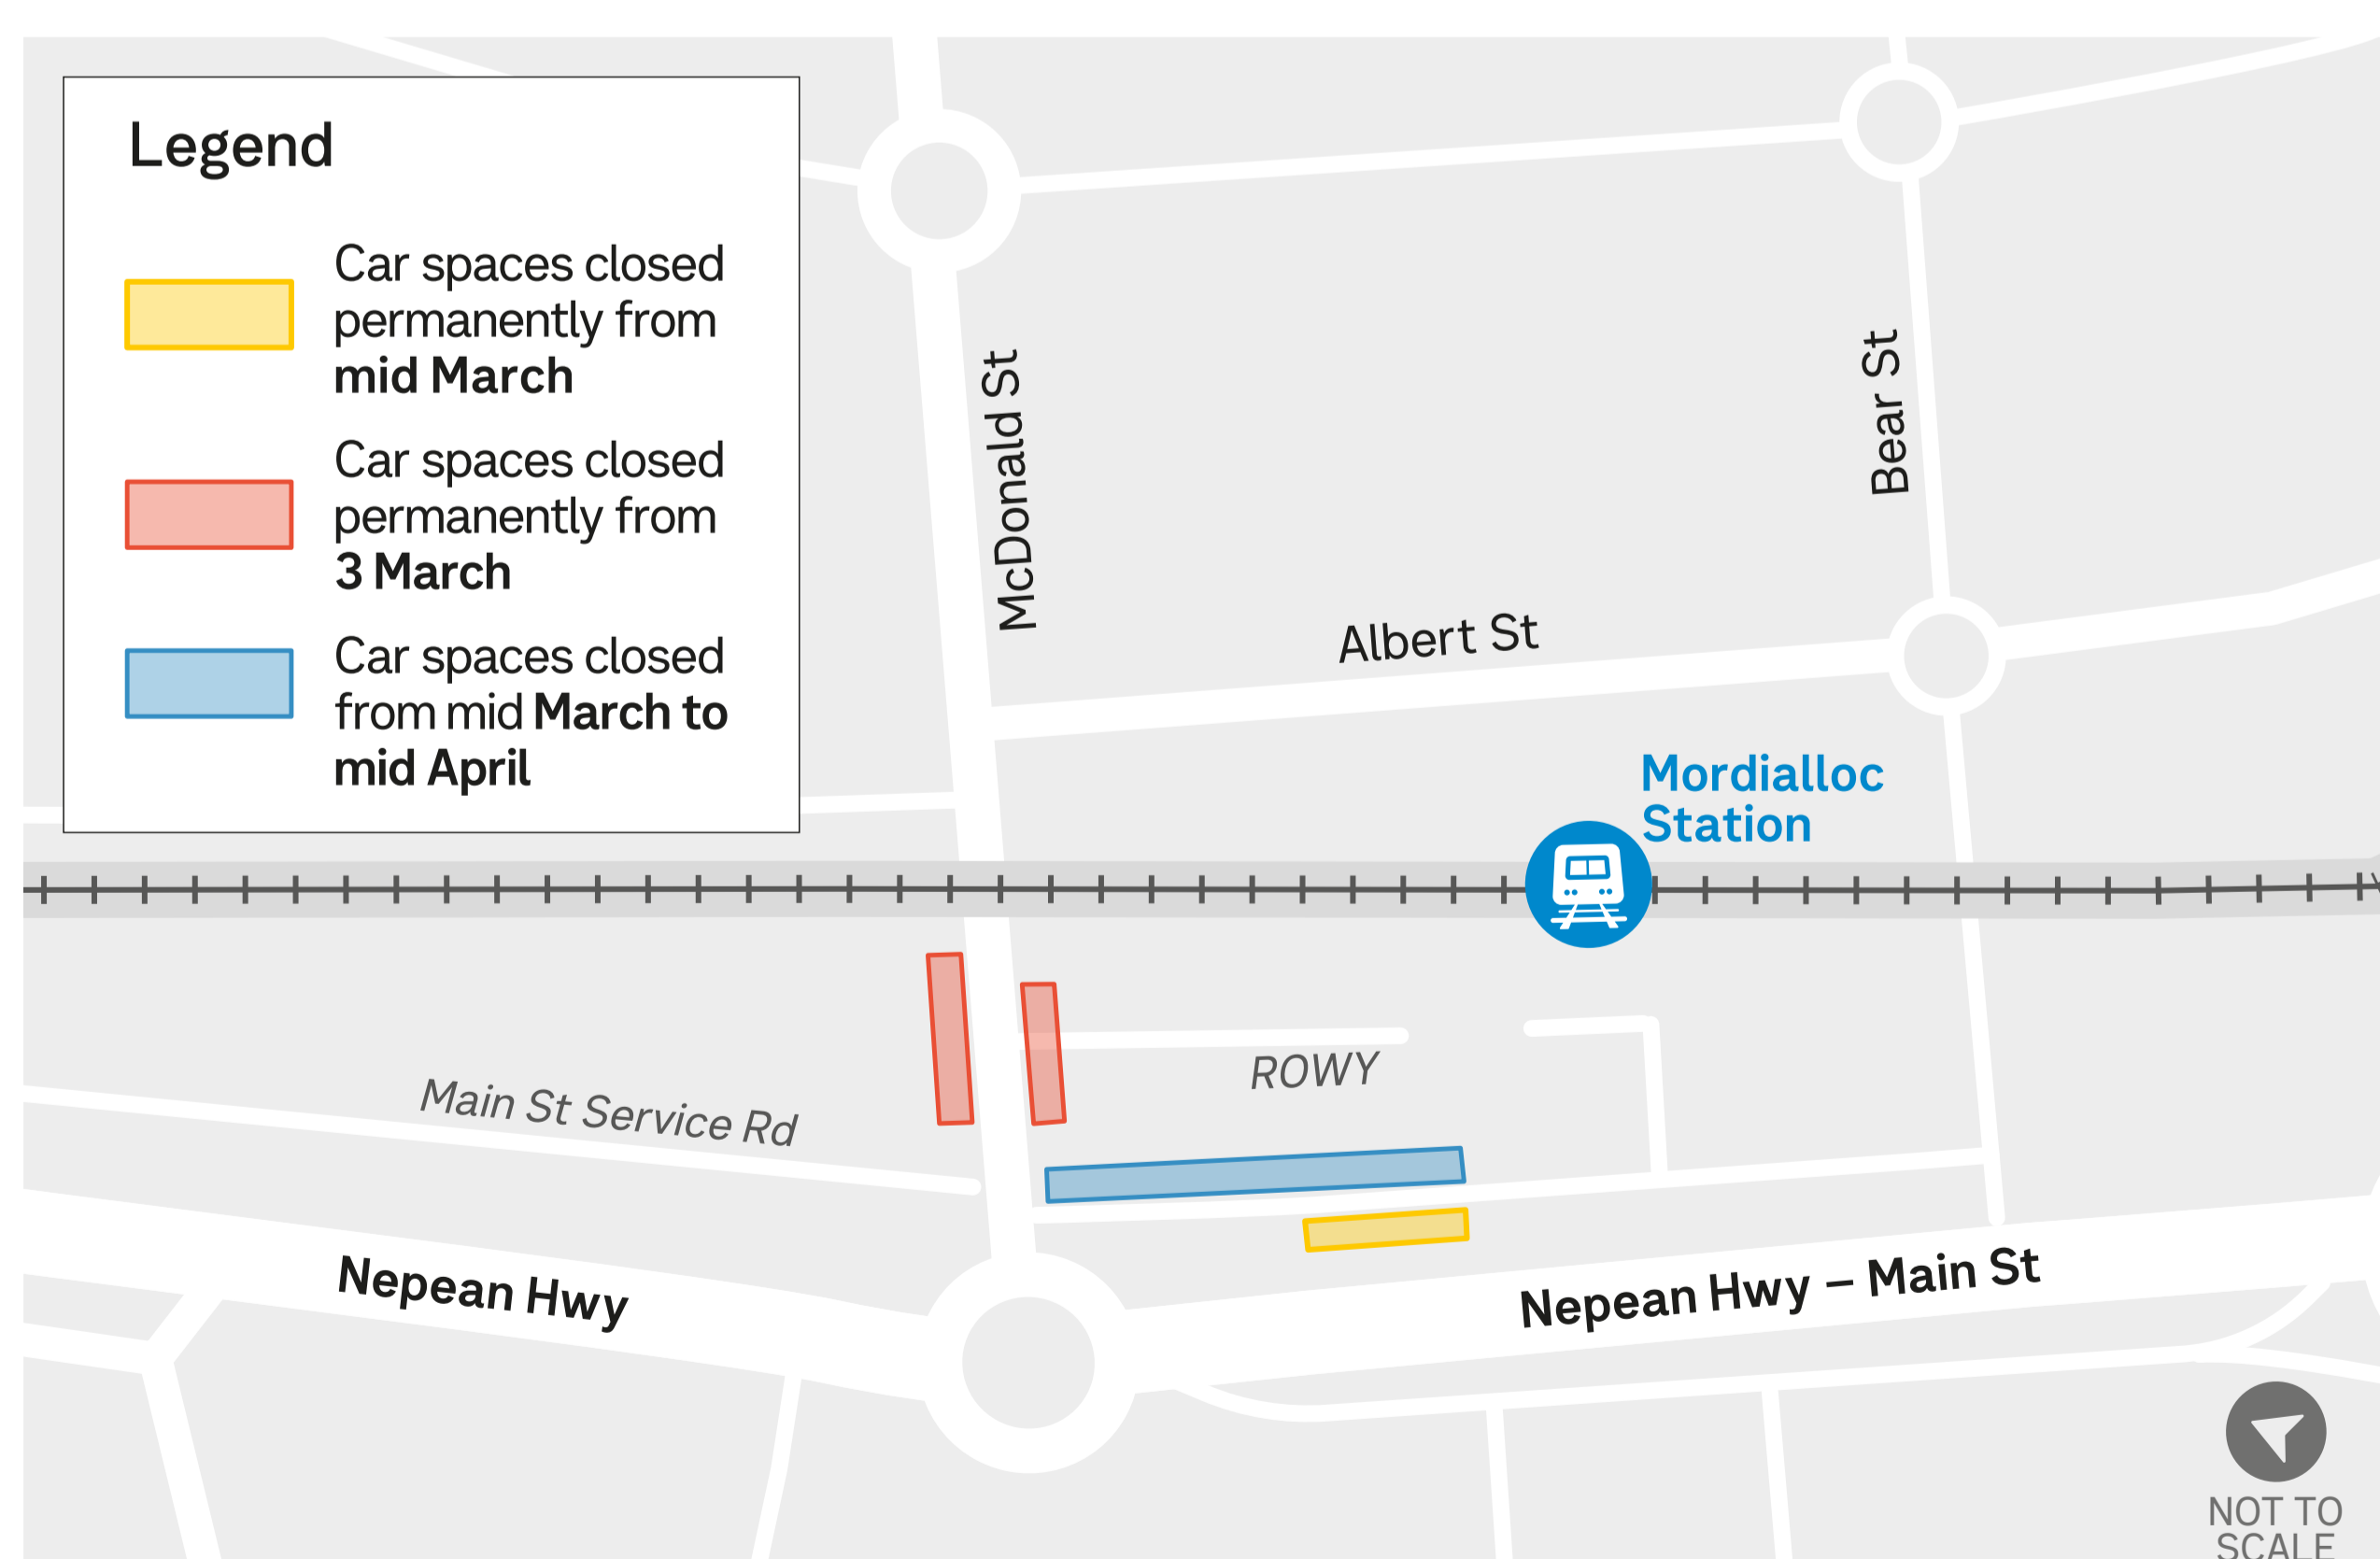

From early March there will be some temporary and permanent changes to parking in the area.

### Main Street Service Road:

- Approximately 22 car spaces closed from **mid March to mid April**. Car spaces will reopen in stages.
- Six car spaces closed permanently from **mid March**. This space will be used to move the existing service road entry on Main Street/Nepean Highway south, to make room for the new left slip lane at the McDonald Street roundabout.

### McDonald Street:

- Eight on-street car spaces closed permanently between Main Street and the level crossing from **Monday 3 March**. This will enable road changes that will make sure traffic continues to flow smoothly through the new boom gate-free area.

### Find out more

There will be additional road, parking and path travel changes in the area. Scan the QR code to see all travel changes.
